Sr Front-end Developer

Cloud Native Developer with nearly 5 years of experience building enterprise and AI-powered applications using React, Node.js, TypeScript, AWS, PostgreSQL, and REST APIs. Delivered measurable improvements including 40% fewer API requests and 68% smaller JavaScript bundles. Experienced in Agile delivery, performance optimization, API integration, and cross-functional collaboration. Open to relocation.

WORK EXPERIENCE

DATAPRET **01/2024 - 03/2024**
MERN Stack Developer (Co-op) **Canada**

- Developed an accessibility-first complaint management platform using React, TypeScript, Redux, Node.js, and REST APIs.
- Improved WCAG compliance by 30% across critical customer workflows, strengthening accessibility and usability.
- Optimized frontend rendering, API interactions, and state management to improve application efficiency and responsiveness.
- Worked with designers and backend engineers to deliver production-ready features within Agile sprints.
- Applied reusable component and frontend architecture practices to maintain consistent, scalable application development.

TATA CONSULTANCY SERVICES (TCS) **01/2019 - 04/2023**
Senior Frontend Developer **India**

- Led a 5-engineer frontend team, owning frontend architecture, reusable components, code quality, technical standards, and engineering practices.
- Delivered 2 enterprise-scale applications using Angular, TypeScript, RxJS, REST APIs, and modern frontend architecture.
- Reduced API requests by 40% through reactive data-flow optimization and efficient state management using RxJS.
- Improved application performance through lazy loading, code splitting, caching, bundle optimization, and rendering optimization.
- Built responsive, cross-browser interfaces with WCAG compliance and achieved zero accessibility defects during QA.
- Collaborated with backend engineers, designers, and cross-functional teams to deliver production-ready features within Agile development cycles.
- Mentored junior developers through code reviews, technical guidance, and frontend engineering best practices.

EDUCATION

Graduate Certificate in Mobile Applications Development
Cambrian College • GPA: 3.8/4.0 Canada

PROJECTS

NEWSALIGN — AI FACT-VERIFICATION PLATFORM

- Built an AI-powered application using React, Node.js, PostgreSQL, AWS RDS, REST APIs, and Retrieval-Augmented Generation (RAG).
- Reduced JavaScript bundle size by 68% through code splitting and frontend performance optimization.
- Improved Lighthouse performance from 73 to 95 through SSR, caching, rendering optimization, and Core Web Vitals improvements.

AI GAME CONCIERGE — AI RECOMMENDATION APPLICATION

- Built an AI recommendation application with a maintainable, testable frontend architecture.
- Developed 152 automated tests achieving 93%+ test coverage, improving production readiness and regression confidence.

SKILLS

TECHNICAL SKILLS: Accessibility/WCAG, Agile, Angular, AWS, AWS RDS, CI/CD, Code Reviews, CSS3, Express.js, Git, GraphQL, HTML5, JavaScript, Jenkins, Jest, Next.js, Node.js, Performance Optimization, PostgreSQL, React.js, Redux Toolkit, REST APIs, RxJS, SQL, Tailwind CSS, TypeScript, Zustand
